

Homework 1a: Writing Python

This assignment is designed to give you practice writing code and applying lessons and topics for the current module.

This assignment deals with the following topics:

- Math
- Data types
- Strings

The Assignment

This assignment is designed to give you practice writing Python and using Jupyter Notebook.

Submission

Open the Jupyter Notebook directly in Coursera (you will find it in the item soon after this reading). To complete the assignment, complete the provided Jupyter Notebook file, following the detailed instructions in each cell. Test your submission before submitting by following the instructions on the assignment page in Coursera. When you're happy with your solutions, click the 'Submit Assignment' button in the top right.

Evaluation

Points: 6.5 pts (.5 pt for each question)
